**EXPLANATORY STATEMENT PURSUANT TO SECTION 102
OF THE COMPANIES ACT, 2013 ANNEXED TO THE
NOTICE****ITEM No. 3**

Sh. Vijender Kumar Gupta was appointed as Chairman and Whole-time Director of the Company at 50th AGM for a period of five years and pursuant to the provisions of the Companies Act, 2013 his remuneration was fixed for three years effective from 13th August, 2015 to 12th August, 2018.

However, the remuneration was paid to Sh. Vijender Kumar Gupta for the time period 13th August, 2018 to 31st March, 2019 after expiry of the period approved by the shareholders.

Therefore, based on the recommendation of Audit Committee and Nomination and Remuneration Committee, the Board of Directors in its meeting held on 30.05.2019 approved the waiver of recovery of gross remuneration of Rs. 28,08,380 (Rupees Twenty Eight Lakhs Eight Thousand Three Hundred and Eighty Only) paid to Sh. Vijender Kumar Gupta for the time period 13th August, 2018 to 31st March, 2019, subject to the approval of members.

That pursuant to the provisions of Section 197 (10) of the Companies Act, 2013, the waiver of recovery of remuneration requires the approval of shareholders by Special Resolution. Therefore, the Board recommends the special resolution set out under item no. 3 of the notice for approval by the shareholders.

None of Directors and Key Managerial Personnel of the Company and their relatives, are in any way concerned or interested, financially or otherwise except Sh. Vijender Kumar Gupta, Sh. Vivek Gupta and Smt. Shalini Gupta in the special resolution set out under item no. 3 of the notice.

ITEM No. 4

Sh. Vivek Gupta was appointed as Managing Director and Chief Executive Officer of the Company at 50th AGM for a period of five years and pursuant to the provisions of the Companies Act, 2013 his remuneration was fixed for three years effective from 1st August, 2015 to 31st July, 2018.

However, the remuneration was paid to Sh. Vivek Gupta for the time period 1st August, 2018 to 31st March, 2019 after expiry of the period approved by the shareholders.

Therefore, based on the recommendation of Audit Committee and Nomination and Remuneration Committee, the Board of Directors in its meeting held on 30.05.2019 approved the waiver of recovery of gross remuneration of Rs. 24,53,960 (Rupees Twenty Four Lakhs Fifty Three Thousand Nine Hundred and Sixty Only) paid to Sh. Vivek Gupta for the time period 1st August, 2018 to 31st March, 2019, subject to the approval of members.

That pursuant to the provisions of Section 197 (10) of the Companies Act, 2013, the waiver of recovery of remuneration requires the approval of shareholders by Special Resolution. MANAGEMENT DISCUSSION AND ANALYSIS REPORT**INDUSTRY STRUCTURE, OUTLOOK & DEVELOPMENTS**

The Company's main business is manufacturing and sales of PVC Wires and Cables with flexible copper conductor. Financial Year 2018-19 was a year of recovery and encouraging for Delton registering revenue growth across product verticals, market share gains and stable profits.

Wires and cables market in India is highly fragmented, with the presence of large number of enterprises. The organized sector manufactures high voltage durable cables, whereas the unorganized sector mainly captures the low voltage market, where products are mainly separated on the basis of the price. Cable industry growth and revenue is dependent on many sectors like telecommunication, automotive, railway, real estate and Infrastructure Sector etc.

India's organized wire and cable market is dominated by few major players amongst your Company gulping a large share of organized market for wires and cables. The intensifying competition in the industry has put increasing pressures on all of players to maintain their market shares and your Company has been continuously working to increase the market share by introducing new various types of cables in addition to enhancing the visibility of its existing brands.

The wires and cables market is presently at its growing stage in our country and is expected to be capturing a significant share in the electrical equipment industry in the upcoming years.

OPPORTUNITY & THREATS, RISK & CONCERNS

The wires and cables industry in India has come a long way, rowing from being a small industry to a very large one, over the past decade. The increasing demand for power, light and communication has kept demand high for wire and cable. This

trend will continue as demand for reliable, efficient energy and data communications will strengthen the wires and cables industry in the future as well.

The specialised cable industry is roughly of the size of Rs. 10,000 crores. The government has announced ambitious plans for infrastructure development. One of the primary focus area of the development plan is railways, with over Rs. 800,000 crore as promised investment over the period of 2015-2020. In addition the government has earmarked Rs 50,000 crore (US\$ 7.53 billion) develop 100 smart cities across the country.

The GST rollout weighed on the growth in the first half of the year. The rationalisation of GST rates for electrical product categories by the government in the second half of the year enabled positive sentiments amongst consumers and we are optimistic about the growth opportunities it may bring.

Your Company is fully aware of these challenges and is geared to meet them. Your Company also recognizes the risks associated with business and takes adequate measures to address the associated risks and concerns.

The Company has laid down a well-defined risk management mechanism covering the risk mapping & trend analysis, risk exposure, potential impact and risk mitigation process. A detailed exercise is being carried out to identify, evaluate, manage and monitoring of both business and non-business risks. The management periodically reviews the risk and suggests steps to be taken to control and mitigate the same through a properly defined framework. In line with the new regulatory requirements, the Company has formally framed a Risk Management Policy to identify and assess the key risk areas, to monitor and report compliance and effectiveness of the policy and procedure.

INDEPENDENT AUDITOR'S REPORT

To the Members

Delton Cables Limited

Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the accompanying Ind AS financial statements of **Delton Cables Limited**, which comprise the Balance Sheet as at March 31, 2019, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the period from April 1, 2018 to March 31, 2019, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matters

1. Accuracy of recognition, measurement, presentation and disclosures of revenues and other related balances in view of adoption of Ind AS 115 "Revenue from Contracts with Customers" (new revenue accounting standard)

The application of the new revenue accounting standard involves certain key judgements relating to identification of distinct performance obligations, determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue recognized over a period. Additionally, new revenue accounting standard contains disclosures which involves collation of information in respect of disaggregated revenue.

AUDITORS RESPONSE

We assessed the Company's process to identify the impact of adoption of the new revenue accounting standard.

Our audit approach consisted testing of the design and operating effectiveness of the internal controls and substantive testing as follows:

- Evaluated the design of internal controls relating to implementation of the new revenue accounting standard.
- Selected a sample of continuing and new contracts, and tested the operating effectiveness of the internal control, relating to identification of the distinct performance obligations and determination of transaction price. We carried out a combination of procedures involving enquiry and observation, reperformance and inspection of evidence in respect of operation of these controls.
- Selected a sample of continuing and new contracts and performed the following procedures :
 - Read, analysed and identified the distinct performance obligations in these contracts.
 - Compared these performance obligations with that identified and recorded by the Company.
 - Considered the terms of the contracts to determine the transaction price including any variable consideration to verify the transaction price used to compute revenue and to test the basis of estimation of the variable consideration.

2. Other Key Matters

The Company has during the year sold its Factory Land and Building situated at Dharuhera, Haryana and shifted its Plant & Machinery alongwith Inventory to plant situated at Faridabad, Haryana. This could have a significant effect on the Sales, direct & indirect costs, fulfillment of contractual obligations, trade receivables for effected customers and valuation of inventory under Work in Progress and other items.

Owing to relocation of production facility, the Company has identified certain inventories mainly included under Work in Progress being sub standard. Further, inventories have been identified which are obsolete owing to design changes. As a result, the Company has, during the year, written down its inventory. Further, the Company has during the year made a detailed assessment necessary to ascertain fair value of trade receivables outstanding for more than three years and wherein management of the Company believes that chances of recovery are remote have been written off.

We assessed these specific material transactions owing to inherent risk of error and the impact it may have on the Ind AS financial statements. We identified the significant risks in the transactions requiring special audit considerations. In this context we performed additional audit procedures including verification of the valuation reports of independent approved valuers for computation of capital gains tax, physical verification reports, internal audit reports, suggestions from lawyers and other material audit evidence suggesting reassessment and write down of inventories and trade receivables. Our audit procedures included an evaluation of the significant judgements made by management, amongst others based on an examination of the associated documents and discussion with management and other personnel of the Company. Furthermore, we discussed the status of legal proceedings in respect of the recovery suits filed by the Company and examined various documents in this respect.

Information Other than the Ind AS Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the Ind AS financial statements and our auditor's report thereon. These reports are expected to be made available to us after the date of this auditor's report.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to

draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Ind AS financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Ind AS financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Ind AS financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
- d) In our opinion, the aforesaid Ind AS financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on March 31, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:
In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its Ind AS financial statements.
 - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

“ANNEXURE B” TO THE INDEPENDENT AUDITOR’S REPORT
(Referred to in paragraph 2 (f) under “Report on Other Legal and Regulatory Requirements”
Section of our Audit Report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of the Company as of March 31, 2019 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

MANAGEMENT’S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITORS’ RESPONSIBILITY

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgments, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

Based on the representation, information and documents provided by the company as regard to the internal control and our testing of such controls, in our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019.

Notes forming part of the financial statements for the year ended 31 March 2019**1 Company Information / Overview**

Delton Cables Limited is a Public Limited Company domiciled in India and incorporated under the provisions of the Companies Act, 1956. In India its shares are listed on Bombay Stock Exchange. The Company has its manufacturing unit at Faridabad. The company is engaged in manufacturing and supplying of wires, cables and switchgears. Delton is a prime supplier to the Power, Telecommunication, Railways, Steel and Mining sectors in India and in the International market also.

2.a Basis of preparation**(i) Statement of compliance**

These Standalone financial statements ("financial statements") have been prepared to comply in all material aspects with the Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013, read together with the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time.

The financial statements were authorised for issue by the Board of Directors of the Company on 30th May 2019.

(i) Basis of measurement

These financial statements have been prepared in accordance with Indian Accounting Standards (IndAS) on accrual and going concern basis and the historical cost convention except for certain financial assets, financial liabilities and certain other items which have been measured at fair value as required under the relevant IndAS, the provisions of the Companies Act, 2013 (Act) (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI), IndAS as prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Accounting Policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

(ii) Critical accounting estimates and judgements

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Information about significant areas of estimation/uncertainty and judgements in applying accounting policies that have the most significant effect on the financial statements are as follows:

- measurement of defined benefit obligations: key actuarial assumptions.
- judgement required to ascertain lease classification.
- measurement of useful life and residual values of property, plant and equipment.
- fair value measurement of financial instruments.
- judgement required to determine probability of recognition of deferred tax assets.
- impairment of trade receivables
- other estimate items determined

There are no assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year.

2.b Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

(i) Current - non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is expected to be realised within 12 months after the reporting period; or

Notes forming part of the financial statements for the year ended 31 March 2019

- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is due to be settled within 12 months after the reporting period; or
- the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include the current portion of non-current financial liabilities. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Operating cycle

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. Based on the nature of operations and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle being a period of 12 months for the purpose of classification of assets and liabilities as current and non-current.

(ii) Foreign currency transactions and translations**Functional and presentation currency**

The management has determined the currency of the primary economic environment in which the Company operates i.e., functional currency, to be Indian Rupees (Rs.). The financial statements are presented in Indian Rupees, which is the Company's functional and presentation currency. All amounts have been rounded to the nearest lacs upto two decimal places, unless otherwise stated.

Transactions and Balances

Monetary and non-monetary transactions in foreign currencies are initially recorded in the functional currency of the Company at the exchange rates at the date of the transactions or at an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary foreign currency assets and liabilities remaining unsettled on reporting date are translated at the rates of exchange prevailing on reporting date. Gains/(losses) arising on account of realisation/settlement of foreign exchange transactions and on translation of monetary foreign currency assets and liabilities are recognised in the Statement of Profit and Loss, except for gains / (losses) arising on translation of long-term foreign currency monetary loans taken before 31 March 2017 and used for acquisition of depreciable property, plant and equipment, are adjusted in the cost of property, plant and equipment. The above treatment will continue till the repayment of the foreign currency monetary loans.

Foreign exchange gains / (losses) arising on translation of foreign currency monetary loans are presented in the Statement of Profit and Loss on net basis. However, foreign exchange differences arising from foreign currency monetary loans to the extent regarded as an adjustment to borrowing costs are presented in the Statement of Profit and Loss, within finance costs.

(iii) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to/ by the Company.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Notes forming part of the financial statements for the year ended 31 March 2019

- Level 1 — Quoted (unadjusted) prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

The Company measures financial instruments, such as, investments (other than investment in subsidiaries), at fair value at each reporting date. Also, fair value of financial instruments measured at amortised cost is disclosed in Note 34.

(iv) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets**Recognition and initial measurement**

All financial assets are initially recognised when the Company becomes a party to the contractual provisions of the instrument. All financial assets are initially measured at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Classification and subsequent measurement**Classification**

For the purpose of subsequent measurement, the Company classifies financial assets in following categories:

- Financial assets at amortised cost
- Financial assets at fair value through other comprehensive income (FVTOCI)
- Financial assets at fair value through profit or loss (FVTPL)

A financial asset being 'debt instrument' is measured at the amortised cost if both of the following conditions are met:

- The financial asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding.

A financial asset being 'debt instrument' is measured at the FVTOCI if both of the following criteria are met:

- The asset is held within the business model, whose objective is achieved both by collecting contractual cash flows and selling the financial assets, and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI on the principal amount outstanding.

A financial asset being equity instrument is measured at FVTPL.

All financial assets not classified as measured at amortised cost or FVTOCI as described above are measured at FVTPL.

Subsequent measurement**Financial assets at amortised cost**

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses, if any. Interest income and impairment are recognised in the Statement of Profit and Loss.

Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest income, are recognised in

Notes forming part of the financial statements for the year ended 31 March 2019

the Statement of Profit and Loss.

Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset. Any gain or loss on derecognition is recognised in the Statement of Profit and Loss.

Impairment of financial assets (other than at fair value)

The Company makes allowance for doubtful trade receivable and contract assets using simplified approach, significant judgement is used to estimate doubtful accounts as prescribed in IND AS 109. In estimating doubtful accounts historical and anticipated customer performance are considered. Changes in the economy, industry, or specific customer conditions may require adjustments to the allowance for doubtful accounts recorded in financial statements. This is done on the basis of company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the counterparty does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

Financial liabilities**Recognition and initial measurement**

All financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument. All financial liabilities are initially measured at fair value minus, in the case of financial liabilities not recorded at fair value through profit or loss, transaction costs that are attributable to the liability.

Classification and subsequent measurement

Financial liabilities are classified as measured at amortised cost or FVTPL.

A financial liability is classified as FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in the Statement of Profit and Loss.

Financial liabilities other than classified as FVTPL, are subsequently measured at amortised cost using the effective interest method. Interest expense are recognised in Statement of Profit and Loss. Any gain or loss on derecognition is also recognised in the Statement of Profit and Loss.

Derecognition

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in the Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the assets and settle the liabilities simultaneously.

(vi) Share capital**Equity share capital**

Issuance of ordinary shares are recognised as equity share capital in equity. Incremental costs directly attributable to the issuance of new equity shares are recognized as a deduction from equity, net of any tax effects.

(vii) Cash and cash equivalents

Cash and cash equivalents comprises of cash at banks and on hand, cheques on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

Notes forming part of the financial statements for the year ended 31 March 2019**(viii) Property, plant and equipment****Recognition and measurement**

Items of property, plant and equipment are measured at cost, less accumulated depreciation and accumulated impairment losses, if any.

The cost of an item of property, plant and equipment comprises: (a) its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates; (b) any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate component of property, plant and equipment.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of property, plant and equipment (calculated as the difference between the net disposal proceeds and the carrying amount of property, plant and equipment) is included in the Statement of Profit and Loss when property, plant and equipment is derecognised. The carrying amount of any component accounted as a separate component is derecognised, when replaced or when the property, plant and equipment to which the component relates gets derecognised.

Subsequent costs

Subsequent costs are included in the asset's carrying amount or recognised as separate assets, as appropriate, only when it is probable that the future economic benefits associated with expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to Statement of Profit and Loss at the time of incurrence.

Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values and is charged to Statement of Profit and Loss. Depreciation on property, plant and equipment, is provided on straight-line method at the rates and in the manner provided in Schedule II of the Companies Act, 2013.

Depreciation has been charged based on the following useful lives:

Asset Head	Useful life in years
Factory Buildings	10-30
Plant and Machinery	15
Furniture & fixtures	10
Office Equipment	5-6
Vehicles	8-10

Leasehold improvements are depreciated on a straight line basis over the period of the initial lease term or their estimated useful life, whichever is lower.

The useful lives have been determined based on internal evaluation done by management and are in line with the estimated useful lives, to the extent prescribed by the Schedule II of the Companies Act, 2013, in order to reflect the technological obsolescence and actual usage of the asset. The residual values are not more than 5% of the original cost of the asset.

Depreciation is calculated on a pro-rata basis for assets purchased/sold during the year.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed by management at each reporting date and adjusted prospectively, as appropriate.

Capital work-in-progress

Cost of property, plant and equipment not ready for use as at the reporting date are disclosed as capital work-in-progress.

(ix) Investment Property

Property that is held for Long-term rental yields or for capital appreciation or both, and that is not occupied by the Group, is classified as Investment Property. Investment Property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the group and the cost of the item can be measured reliably. All other repair and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised. Investment Properties are depreciated using the straight line method over their estimated useful lives. The useful life has been

Notes forming part of the financial statements for the year ended 31 March 2019

determined based on technical evaluation performed by the management's expert.

(ix) Intangible Assets**Recognition and measurement**

Other intangible assets that are acquired are recognised only if it is probable that the expected future economic benefits that are attributable to the asset will flow to the Company and the cost of assets can be measured reliably. The other intangible assets are recorded at cost of acquisition including incidental costs related to acquisition and installation and are carried at cost less accumulated amortisation and impairment losses, if any.

Gain or losses arising from derecognition of an other intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the other intangible asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

Particulars	Useful life in years
Goodwill	10
Brands/Trademarks	10
Computer Software	4

Subsequent costs

Subsequent costs is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure on other intangible assets is recognised in the Statement of Profit and Loss, as incurred.

Amortisation

Amortisation is calculated to write off the cost of other intangible assets over their estimated useful lives of 3 years using the straight-line method. Amortisation is calculated on a pro-rata basis for assets purchased/ disposed during the year.

Amortisation method, useful lives and residual values are reviewed at each reporting date and adjusted prospectively, if appropriate.

Intangible assets under development

Cost of intangible assets under development as at the reporting date are disclosed as intangible assets under development.

(x) Leases**Leased assets**

Leases of property, plant and equipment that transfer to the Company substantially all of the risks and rewards of ownership are classified as finance lease. The leased assets are measured initially at an amount equal to the lower of their fair value and the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities, as appropriate. Subsequent to initial recognition, the assets are accounted for in accordance with the accounting policy applicable to similar owned assets.

Leases in which significant portion of risks and rewards of ownership are not transferred are classified as operating leases. In determining the appropriate classification, the substance of the transaction rather than the form is considered.

Lease classification is made at the inception of the lease. Lease classification is changed only if, at any time during the lease, the parties to the lease agreement agree to revise the terms of the lease (without renewing it) in a way that it would have been classified differently, had the changed terms been in effect at inception. The revised agreement involves renegotiation of original terms and conditions and are accounted prospectively over the remaining term of the lease.

Lease payments

Minimum lease payments made under finance lease are apportioned between the finance costs and the reduction of the outstanding liability. The finance costs is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

Lease payments in respect of assets taken on operating lease are charged to the Statement of Profit and Loss on a straight line basis over the period of the lease unless the payments are structured to increase in line with the expected general inflation to compensate the lessor's expected inflationary cost increases.

(xi) Inventories

Raw Materials, Components, Loose Tools, Stores and Spares are valued at the lower of cost and net realisable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on a weighted average basis. Work-in-progress and finished goods are valued at the lower of cost and net realisable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost of finished goods includes excise

Notes forming part of the financial statements for the year ended 31 March 2019

duty. Cost is determined on a weighted average basis. Stock-in-trade are valued at the lower of cost and net realisable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on a weighted average basis.

(xii) Impairment - non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets to determine whether there is any indication of impairment. If any such indication of impairment exists, then the asset's recoverable amount is estimated. For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash generating units (CGUs).

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the Statement of Profit and Loss.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(xiii) Employee benefits**Short-term employee benefits**

Employee benefit liabilities such as salaries, wages and bonus, etc. that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at an undiscounted amount expected to be paid when the liabilities are settled.

Post-employment benefit plans**Defined contribution plans**

The Company pays provident fund contributions to the appropriate government authorities. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefits expense when they are due.

Defined benefit plans

Defined benefit plans of the Company comprise gratuity.

The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. The plan provides for a lump sum payment to vested employees at retirement, death while in employment or on termination of employment, of an amount based on the respective employee's salary and the tenure of employment. Vesting occurs upon completion of five years of service. The gratuity plan of the Company is unfunded.

The liability recognised in the balance sheet in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated by actuary using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation. This cost and other costs are included in employee benefit expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in "other equity" in the Statement of Changes in Equity and in the Balance Sheet.

Changes in the present value of the defined benefit obligation resulting from settlement or curtailments are recognised immediately in Statement of Profit and Loss as past service cost.

Other long-term employee benefits**i. Compensated absences**

Accumulated leave which is expected to be utilised within the next 12 months is treated as a short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of

Notes forming part of the financial statements for the year ended 31 March 2019

the unused entitlement that has accumulated at the reporting date.

Accordingly, benefits under compensated expenses are accounted as other long-term employee benefits. The Company's net obligation in respect of compensated absences is the amount of benefit to be settled in future, that employees have earned in return for their service in the current and previous years. The benefit is discounted to determine its present value. The obligation is measured on the basis of an actuarial valuation using the projected unit credit method. Remeasurements are recognised in Statement of Profit and Loss in the period in which they arise.

ii. Others

The Company's net obligation in respect of long-term employee benefits other than post-employment benefits is the amount of benefit to be settled in future, that employees have earned in return for their service in the current and previous years. The benefit is discounted to determine its present value. The obligation is measured on the basis of an actuarial valuation using the projected unit credit method. Remeasurements are recognised in Statement of Profit and Loss in the period in which they arise.

(xiv) Provisions and contingent liabilities and assets**Provisions**

Provisions are recognised when the Company has a present legal or constructive obligation as a result of a past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities and assets

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote.

Contingent assets are possible assets that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

(xv) Revenue recognition

The Company earns revenue primarily from selling of Cables and switchgear items

Effective 1 April 2018, the Company has applied Ind AS 115 Revenue from contracts with customers which establishes a comprehensive framework for determining whether, how much and when revenue is to be recognised. Ind AS 115 replaces earlier Ind AS 18 Revenue and Ind AS 11 Construction Contracts. The Company has adopted Ind AS 115 using the modified retrospective approach. The effect of initially applying this standard is recognised at the date of initial application (i.e. 1 April 2018). The standard is applied retrospectively only to contracts that are not completed as at the date of initial application and the comparative information in the statement of profit and loss is not restated – i.e. the comparative information continues to be reported under Ind AS 18. There were no material adjustments required to the retained earnings as at 1 April 2018. Also the application of Ind AS 115 did not have any significant impact on recognition and measurement of revenue and related items in the financial statements of the Company.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services. The Company recognizes revenue on satisfaction of the performance obligation by transferring the promised goods and services mentioned in the contracts with the customers.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

The Company recognizes revenue for a performance obligation satisfied at point in time after satisfaction of the performance obligation. In case where the outcome of a performance obligation cannot be reasonably measured but the Company expects to recover the costs incurred in satisfying the performance obligation, the revenue is being recognized only to the extent of the costs incurred until such time that it can reasonably measure the outcome of the performance obligation.

The Company disaggregates revenue from contracts with customers by nature of goods and service.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time

Notes forming part of the financial statements for the year ended 31 March 2019

is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognised when there is billing in excess of revenues.

Interest income on financial assets (including deposits with banks) is recognised using the effective interest rate method.

Export Benefits

Export entitlements are recognised in the statement of profit and loss when the right to receive credit as per the terms of the scheme is established in respect of exports made and when there is no significant uncertainty regarding the ultimate collection of the relevant export proceeds.

(xvi) Expenditure

Expenses are accounted for on the accrual basis and provisions are made for all known losses and liabilities.

(xvii) Borrowing costs

Borrowing costs attributable to the acquisition or construction of a qualifying asset are capitalised as part of the cost of the asset. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. Other borrowing costs are recognised as an expense in the period in which they are incurred. Borrowing cost includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

(xviii) Income tax

Income tax expense comprises of current tax and deferred tax. It is recognised in the Statement of Profit and Loss except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any relating to income taxes. It is measured using tax rates enacted at the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes.

Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets unrecognised or recognised, are reviewed at each reporting date and are recognised / reduced to the extent that it is probable / no longer probable respectively that the related tax benefit will be realised. Significant management judgement is required to determine the probability of deferred tax asset.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Minimum Alternative Tax ("MAT") credit entitlement under the provisions of the Income-tax Act, 1961 is recognised as a deferred tax asset when it is probable that future economic benefit associated with it in the form of adjustment of future income tax liability, will flow to the Company and the asset can be measured reliably. MAT credit entitlement is set off to the extent allowed in the year in which the Company becomes liable to pay income taxes at the enacted tax rates. MAT credit entitlement is reviewed at each reporting date and is recognised to the extent that it is probable that future taxable profits will be available against which they can be used. MAT credit entitlement has been presented as deferred tax asset in Balance Sheet. Significant management judgement is required to determine the probability of recognition of MAT credit entitlement.

Deferred tax assets and deferred tax liabilities are offset only if there is a legally enforceable right to offset current tax liabilities and assets levied by the same tax authorities.

(xix) Earnings per share

The Company presents basic and diluted earnings per share (EPS) data for its equity shares.

Basic EPS is calculated by dividing the profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period.

Notes forming part of the financial statements for the year ended 31 March 2019

Diluted EPS is determined by adjusting profit or loss attributable to equity shareholders and the weighted average number of equity shares outstanding, for the effects of all dilutive potential equity shares, which comprise convertible preference shares and share options granted to employees.

(xx) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker is considered to be the Board of Directors who makes strategic decisions and is responsible for allocating resources and assessing performance of the operating segments.

(xxi) Recent Indian Accounting Standards (Ind AS)

Ministry of Corporate Affairs ("MCA"), through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified the following new standards and amendments to Ind AS which the Company has not applied as they are effective from 1 April 2019:

Appendix B to Ind AS 21, Foreign currency transactions and advance consideration:

On 28 March 2018, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendments Rules, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of transaction for the purpose of determining the exchange rate to use on initial recognition of the related assets, expense or income, when an entity has received or paid advance consideration in a foreign currency. The amendment will come into force from 1st April 2018 and the company is in process of evaluating its impact on the standalone financial statements.

Ind AS 116 – Leases

Ind AS 116 will replace the existing leases standard, Ind AS 17 Leases. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lessee accounting model for lessees. A lessee recognises right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. The standard also contains enhanced disclosure requirements for lessees. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17.

The Company will adopt Ind AS 116, effective annual reporting period beginning 1 April 2019. The Company will apply the standard to its leases, retrospectively, with the cumulative effect of initially applying the standard, recognised on the date of initial application (1 April 2019). Accordingly, the Company will not restate comparative information, instead, the cumulative effect of initially applying this Standard will be recognised as an adjustment to the opening balance of retained earnings as on 1 April 2019. On that date, the Company will recognise a lease liability measured at the present value of the remaining lease payments. The right-of-use of asset is recognised at its carrying amount as if the standard had been applied since the commencement date, but discounted using the lessee's incremental borrowing rate as at 1 April 2019. In accordance with the standard, the Company will elect not to apply the requirements of Ind AS 116 to short-term leases and leases for which the underlying asset is of low value.

On transition, the Company will be using the practical expedient provided the standard and therefore, will not reassess whether a contract, is or contains a lease, at the date of initial application. The Company is in the process of finalising changes to systems and processes to meet the accounting and reporting requirements of the standard.

With effect from 1 April 2019, the Company will recognise new assets and liabilities for its operating leases of premises and other assets. The nature of expenses related to those leases will change from lease rent in previous periods to (a) amortization change for the right-to-use asset, and (b) interest accrued on lease liability.

Previously, the Company recognised operating lease expense on a straight-line basis over the term of the lease, and recognised assets and liabilities only to the extent that there was a timing difference between actual lease payments and the expense recognised.

The Company has completed an initial assessment of the potential impact on its financial statements but has not yet completed its detailed assessment. The quantitative impact of adoption of Ind AS 116 on the financial statements in the period of initial application cannot be estimated reasonably as at present.

Ind AS 109 – Prepayment Features with Negative Compensation

The amendments relate to the existing requirements in Ind AS 109 regarding termination rights in order to allow measurement at amortised cost (or, depending on the business model, at fair value through other comprehensive income) even in the case of negative compensation payments. The Company does not expect this amendment to have any material impact on its financial statements.

Ind AS 19 – Plan Amendment, Curtailment or Settlement

The amendments clarify that if a plan amendment, curtailment or settlement occurs, it is mandatory that the current service cost and the net interest for the period after the re-measurement are determined using the assumptions used for the re-

measurement. In addition, amendments have been included to clarify the effect of a plan amendment, curtailment or settlement on the requirements regarding the asset ceiling. The Company does not expect this amendment to have any material impact on its financial statements.

Ind AS 23 – Borrowing Costs

The amendments clarify that if any specific borrowing remains outstanding after the related asset is ready for its intended use or sale, that borrowing becomes part of the funds that an entity borrows generally when calculating the capitalisation rate on general borrowings. The Company does not expect any material impact from this amendment.

Ind AS 40 - Transfers of Investment Property

The amendments clarify when an entity should transfer property, including property under construction or development into, or out of investment property. The amendments state that a change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. A mere change in management's intentions for the use of a property does not provide evidence of a change in use. The Company does not expect any material impact from this amendment.

Ind AS 12 - Recognition of Deferred Tax Assets for Unrealised Losses and Uncertainty over Income Tax Treatments

The amendments clarify that an entity needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions on the reversal of that deductible temporary difference. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount.

Entities are required to apply the amendments retrospectively. However, on initial application of the amendments, the change in the opening equity of the earliest comparative period may be recognised in opening retained earnings (or in another component of equity, as appropriate), without allocating the change between opening retained earnings and other components of equity. Entities applying this relief must disclose that fact.

The Company has completed an initial assessment of the potential impact on its financial statements but has not yet completed its detailed assessment. The quantitative impact on the financial statements cannot be estimated reasonably as at present.

On March 30, 2019, the Ministry of Corporate Affairs has notified Ind AS 12, Appendix C, Uncertainty over Income Tax Treatments which is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates. The effective date for adoption of Ind AS 12 Appendix C is annual periods beginning on or after April 1, 2019. The Company will adopt the standard on April 1, 2019 and has decided to adjust the cumulative effect in equity on the date of initial application i.e. April 1, 2019 without adjusting comparatives. The Company has completed an initial assessment of the potential impact on its financial statements but has not yet completed its detailed assessment. The quantitative impact on the financial statements cannot be estimated reasonably as at present.

Nature and purpose of other reserves**Securities premium reserve**

Securities Premium reserve represents the amount received in excess of par value of securities (equity shares). The reserve is utilised in accordance with the provisions of the Companies Act, 2013.

General reserve

General reserve represents the statutory reserve created in accordance with Indian Corporate law, wherein a portion of profit is required to be apportioned to such reserve. Under the Companies Act, 1956, it was mandatory to transfer a required amount to general reserve before a company could declare dividend, however, under the Companies Act, 2013, the transfer of any amount to general reserve is at the discretion of the Company.

Retained earnings

Retained earnings represent the undistributed profits of the Company.

Note - A The Company during the year has sold its Dharuhera Factory Land and Buildings for sale consideration aggregating to Rs. 2800 lacs having proportionate cost of Rs.21.37 lacs (including brokerage 16.52 lacs).The Company has further during the year sold land measuring 270 Kanals and 17 Marlas situated at Tehsil Dharuhera, district Rewari for sale consideration aggregating to Rs.7000 lacs having proportionate cost of Rs.625.25 lacs (including brokerage Rs.105 lacs and EDC charges Rs. 518.08 lacs) Resulting gain from such disposals has been credited to the statement of profit and loss.

Note - B The Company during the year shifted its Plant & Machinery alongwith inventory from Dharuhera Plant to Faridabad Plant. Owing to relocation of production facility, the management has identified certain inventories mainly included under Work in Progress being sub standard and not up to the standards laid down by the Company and customers. Further, inventories have been identified which are obsolete owing to design changes or being rejected by customers. As a result, the Company has during the year, written down its inventory in line with reasons stated above to the extent of Rs. 1938.02 lacs. The management of the Company believes that such write down is adequate to reflect the inventories at net realisable value in the financial statements.

Note-C The Company has during the year made a detailed assessment necessary to ascertain fair value of trade receivables outstanding for more than three years against which a provision of Rs. 393.51 lacs was made in the previous year financial statements as per the Company policies and applicable accounting standards. Legal proceedings had been initiated in case of several such customers and based on the outcome, trade receivables which were outstanding for more than three years and wherein management of the Company believes that chances of recovery are remote have been written off. As a result, bad debt expenses for the year include additional amount of Rs.1076.82 lacs (Net of provision of Rs. 393.51 lacs (Gross Amount -Rs. 1470.33 lacs)) being additional write down to measure trade receivables at realisable value in the financial statements. The management of the Company believes that such write down is adequate to reflect the trade receivables at fair value in the financial statements.

Note-D The Company has during the year written off old asset balances appearing under "Balance from Government Authorities" Rs.340.84 lacs (including Excise Duty on deemed exports Rs. 48.96 lacs, Export Incentive Rs. 186.13 lacs, Sales Tax/Cenvat Balances Rs. 56.85 lacs) as the same were deemed irrecoverable based on legal opinion.

Some of the Company's borrowings have been contracted at floating rates of interest, which resets at short intervals. Accordingly, the carrying value of such borrowings (including interest accrued but not due) approximates fair value.

Notes forming part of the financial statements for the year ended 31 March 2019

(Rupees in lakhs, except for share data and if otherwise stated)

* The carrying amounts of trade receivables, trade payables, cash and cash equivalents, bank balances other than cash and cash equivalents, other current financial assets and other current financial liabilities, approximates the fair values, due to their short-term nature. The other non-current financial assets represents bank deposits (due for maturity after twelve months from the reporting date) and interest accrued but not due on bank deposits, the carrying value of which approximates the fair values as on the reporting date.

There has been no transfers between Level 1, Level 2 and Level 3 for the years ended 31 March 2019 and 31 March 2018.

Valuation technique used to determine fair value

The fair values for investments and loans were calculated based on discounted cash flows using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including counter party credit risk.

All of the resulting fair value estimates for unlisted equity securities, where the fair values have been determined based on present values and the discount rates used were adjusted for counter party or own credit risk.

Valuation processes

The finance department of the Company includes a team that performs the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. This team reports directly to the Senior Management. Discussions on valuation and results are held between the Senior Management and valuation team atleast once every quarter in line with the Company's quarterly reporting periods.

b. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- Credit risk;
- Liquidity risk;
- Market Risk - Foreign currency; and
- Market Risk - Interest rate

Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors has authorized respective business Managers to establish the processes, who ensures that executive management controls risks through the mechanism of properly defined framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed by the business managers periodically to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

35 b. Financial risk management (continued)**(i) Credit risk**

The maximum exposure to credit risks is represented by the total carrying amount of these financial assets in the Balance Sheet

Particulars	As at 31 March 2019	As at 31 March 2018
Trade receivables	3,160.52	2,717.70
Loans	73.78	78.19
Cash and cash equivalents	478.43	75.45
Other bank balances other than cash and cash equivalents	3,969.03	157.89
Other financial assets	218.03	174.91

Credit risk is the risk of financial loss to the Company if a customer or counter party to a financial instrument fails to meet its contractual obligations.

Credit risk on cash and cash equivalents is limited as the Company generally invests in deposits with banks with high credit ratings assigned by domestic credit rating agencies. The loan represents security deposits given to suppliers, employees and others. The credit risk associated with such deposits is relatively low.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

The Company's Management has established a credit policy under which each new customer is analyzed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. The Company's review includes market check, industry feedback, past financials and external ratings, if they are available, and in some cases bank references. Sale limits are established for each customer and any sales exceeding those limits require necessary approval.

Majority of the Company's customers have been transacting with the Company from many years, and no impairment loss has been recognized against these customers. In monitoring customer credit risk, customers are reviewed according to their credit characteristics, including whether they are an individual or a legal entity, their geographic location, industry and existence of previous financial difficulties.

Notes forming part of the financial statements for the year ended 31 March 2019

(Rupees in lakhs, except for share data and if otherwise stated)

As per Ind AS 109, the Company makes allowance for doubtful trade receivable using simplified approach, significant judgement is used to estimate doubtful accounts as prescribed in IND AS 109. In estimating doubtful accounts historical and anticipated customer performance are considered. Changes in the economy, industry, or specific customer conditions may require adjustments to the allowance for doubtful accounts recorded in financial statements. This is done on the basis of company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period. Based on the business environment in which the Company operates, management considers that the trade receivables (other than receivables from government departments) are in default (credit impaired) if the payments are more than 365 days past due however the Company based upon past trends determine an impairment allowance for loss on receivables outstanding for more than 365 days past due and the probability of recovery determined by the competent management.

The gross carrying amount of trade receivables is Rs. 3160.52 lacs (Net of provision of Rs. 20.84 lacs) (31 March 2018 – Rs. 2717.70 (Net of provision of Rs. 393.51 lacs)).

The Company's exposure to credit risk for trade receivables is as follows:

Particulars	Gross carrying amount	
	As at 31 March 2019	As at 31 March 2018
Not Due	1,450.84	575.80
1-180 days past due	953.84	279.86
181 to 365 days past due*	81.37	516.70
More than 365 days past due #	674.47	1,345.34
	3,160.52	2,717.70

* The Company believes that the unimpaired amounts that are past due by more than 180 days are still collectible in full, based on historical payment behaviour.

The Company based upon past trends determine an impairment allowance for loss on receivables outstanding for more than 365 days past due.

The allowance for lifetime expected credit loss on customer balances for the year ended 31 March 2019 and 31 March 2018 is insignificant and hence the same has not been recognised. The reversal for lifetime expected credit loss on customer balances for the year ended 31 March 2019 is Rs. Nil (31 March 2018: Rs. Nil.)

(ii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial assets. The Company's approach to manage liquidity is to have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed circumstances, without incurring unacceptable losses or risking damage to the Company's reputation.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, Company treasury maintains flexibility in funding by maintaining availability under credit facilities.

Liquidity risk results from the Company's potential inability to meet the obligations associated with its financial liabilities, for example settlement of financial debt and paying suppliers. The Company's liquidity is managed by Company Treasury. The aim is to ensure effective liquidity management, which primarily involves obtaining sufficient committed credit facilities to ensure adequate financial resources and, to some extent, tapping a range of funding sources.

36 Segment reporting**A. Basis for Segment reporting****Factors used to identify the entity's reportable segments, including the basis of organisation**

The company is engaged in manufacturing of Wire, cable and Switchgears. Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM). The CODM is considered to be the Board of Directors who makes strategic decisions and is responsible for allocating resources and assessing performance of the operating segments. The CODM has determined only one operating segment.

3 The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under Micro Small and Medium Enterprise Development Act, 2006.	-	-
4 The amount of interest accrued and remaining unpaid at the end of each accounting year, and	-	-
5 The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under Section 23 of the Micro Small and Medium Enterprise Development Act, 2006.		

Financial risk management (continued)

Net financial debt is used internally by Company Treasury to monitor the Company's credit resources available. Net financial debt is the Company's net interest-bearing debt, excluding interest-bearing assets, as these assets are not actively managed in relation to liquidity risk.

At 31 March 2019, net financial debt was Rs. 959.22 (31 March 2018: Rs. 6,502.32).

At 31 March 2019, the Company had total unutilised credit facilities of INR 632.52 (31 March 2017: INR 2860.47), of which INR Nil (31 March 2018: INR Nil) was non-current credit facilities. Credit resources available consist of the unutilised credit facilities, bank balances and cash and cash equivalents of INR 5079.98 (31 March 2018: INR 3093.81).

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The contractual cash flow amounts are gross and undiscounted, and includes interest accrued but not due on borrowings.

The inflows/(outflows) disclosed in the above table represent the contractual undiscounted cash flows relating to derivative financial liabilities held for risk management purposes and which are not usually closed out before contractual maturity.

(iii) Market risk

Market risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk namely: currency risk and interest rate risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

A. Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's borrowings with floating interest rates.

Exposure to interest rate risk

The Company's interest rate risk arises majorly from the term loan carrying floating rate of interest. These obligations exposes the Company to cash flow interest rate risk. The exposure of the Company's borrowing to interest rate changes as reported to the management at the end of the reporting period are as follows:

	As at 31 March 2019	As at 31 March 2018
Fixed rate liabilities		
Borrowings	-	-

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased (decreased) equity and profit or loss by the amounts shown below.

Particulars	Statement of Profit and Loss		Equity, net of tax		
	100 bp increase	100 bp decrease		100 bp increase	100 bp decrease

Cash flow sensitivity

Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

B. Currency risk

Currency risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company is exposed to the effects of fluctuation in the prevailing foreign currency exchange rates on its financial position and cash flows. Exposure arises primarily due to exchange rate fluctuations between the functional currency and other currencies from the Company's operating, investing and financing activities.

Exposure to foreign currency risk

The summary of quantitative data about the Company's exposure to currency risk, as expressed in Indian Rupees, as at 31 March 2019 are as below:

As at 31 March 2019

Particulars	USD	GBP	Total
Financial assets			
Trade receivables	76,737	-	76,737

Sensitivity analysis

A reasonably possible strengthening (weakening) of the Indian Rupee against below currencies at 31 March 2019 and 31 March 2018 would have affected the measurement of financial instruments denominated in foreign currency and affected Statement of Profit and Loss by the amounts shown below. This analysis is performed on foreign currency denominated monetary financial assets and financial liabilities outstanding as at the year end. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

Capital Management

The primary objective of the management of the Company's capital structure is to maintain an efficient mix of debt and equity in order to achieve a low cost of capital, while taking into account the desirability of retaining financial flexibility to pursue business opportunities and adequate access to liquidity to mitigate the effect of unforeseen events on cash flows. Management also monitors the return on equity.

The Board of directors regularly review the Company's capital structure in light of the economic conditions, business strategies and future commitments.

For the purpose of the Company's capital management, capital includes issued share capital, securites premium and all other equity reserves. Debt includes term loan

During the financial year ended 31 March 2019, no significant changes were made in the objectives, policies or processes relating to the management of the Company's capital structure.

(ii) Post-employment obligations

a) Gratuity

The Company provides for gratuity for employees as per the Payment of Gratuity Act, 1972. The employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement / termination is the employee's last drawn basic salary per month computed proportionately for 15 days' salary multiplied with the number of years of service. The gratuity plan is a funded plan and the Company makes contributions to recognised funds in India. The Company does not fully fund the liability and maintains a target level of funding to be maintained over a period of time based on estimations of expected gratuity payments.

(iii) Defined contribution plans

The Company also has certain defined contribution plans. Contributions are made to provident fund, employee pension scheme and employee's state insurance scheme for employees as per regulations. The contributions are made to registered funds administered by the government. The obligation of the Company is limited to the amount contributed and it has no further contractual or any constructive obligation.

Balance sheet amounts - Gratuity

The amounts recognised in the balance sheet and the movements in the net defined benefit obligation over the year are as follows:

	Present value of obligation (Rs. in lacs)	Fair value of plan assets (Rs. in lacs)	Net amount (Rs. in lacs)
April 1, 2018	153.33	0.84	154.17

The net liability disclosed above relates to funded plan as follows:

	31 March 2019 (Rs. in lacs)	31 March 2018 (Rs. in lacs)
Present value of funded obligation	188.65	153.33
Fair value of plan assets	(0.91)	(0.08)
Deficit of funded plan	187.74	153.24
Unfunded plans	-	-
Deficit of gratuity plan	187.74	153.24

(iv) Post employment benefits (gratuity)

The significant actuarial assumptions were as follows:

	31 March 2019	31 March 2018
Discount rate	7.70%	7.70%
Salary growth rate	6.00%	6.00%
Mortality rate	Published rates under Indian Assured Lives Mortality (2006-08) ultimate table	

Notes forming part of the financial statements for the year ended 31 March 2019

(Rupees in lakhs, except for share data and if otherwise stated)

(v) Sensitivity analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

(i) Changes in defined benefit obligation due to 1% increase/decrease in discount rate

Particulars	31-Mar-19	31-Mar-18
	(Rs. in lacs)	(Rs. in lacs)
a) Defined benefit obligation	188.65	153.33
b) Defined benefit obligation at 1% increase in discount rate	181.25	145.56
c) Defined benefit obligation at 1% decrease in discount rate	197.19	162.30
d) Decrease in defined benefit obligation due to 1% increase in discount rate (a-b)	7.40	7.76
e) Increase in defined benefit obligation due to 1% decrease in discount rate (c-a)	8.54	8.97

(ii) Changes in defined benefit obligation due to 1% increase/decrease in salary growth rate

	31-Mar-19	31-Mar-18
	(Rs. in lacs)	(Rs. in lacs)
a) Defined benefit obligation	188.65	153.33
b) Defined benefit obligation at 1% increase in salary growth rate	197.24	162.36
c) Defined benefit obligation at 1% decrease in salary growth rate	181.07	145.38
d) Increase in defined benefit obligation due to 1% increase in salary growth rate (b-a)	8.59	9.03
e) Decrease in defined benefit obligation due to 1% decrease in salary growth rate (a-c)	7.58	7.95

(iii) Changes in defined benefit obligation due to 1% increase/decrease in mortality rate, is negligible.

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumption the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

(vi) The major categories of plan assets are as follows:

	March 31, 2019		March 31, 2018	
	Unquoted	in %	Unquoted	in %
Investment funds				
Plan assets with recognised gratuity trust which has taken a gratuity policy with the Life Insurance Corporation of India (LIC)	0.08	100%	(0.08)	100%
Total	(0.08)	100%	(0.08)	100%

(vii) Risk exposure

Through its defined benefit plan, the Company is exposed to a number of risks, the most significant of which are defined below:

Investment risk	The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to yield on government bonds. If plan liability is funded and return on plan assets is lower than yield on the government bonds, it will create a plan deficit.
Interest risk (discount rate risk)	A decrease in the bond interest rate (discount rate) will increase the plan liability.
Mortality risk	The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants. The mortality table used for the purpose is Indian Assured Lives Mortality (2006-08) ultimate table published by the Institute of Actuaries of India. A change in mortality rate will have a bearing on the plan's liability.
Salary risk	The present value of the defined benefit plan liability is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

Notes forming part of the financial statements for the year ended 31 March 2019

(Rupees in lakhs, except for share data and if otherwise stated)

The Company ensures that investment positions are managed within an asset/liability matching (ALM) framework that has been developed to achieve long term investments that are in line with the obligations under employee benefit plans. Within this framework, the Company's ALM objective is to match assets to the Gratuity obligations by investing in Plan assets with recognised gratuity trust which has taken a gratuity policy with the Life Insurance Corporation of India (LIC) with maturities that match the benefit payments as they fall due.

The Company actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from the employee benefit obligations. The Company has not changed the processes to manage its risk from previous periods.

The Company believes the LIC policy offers reasonable returns over the long-term with an acceptable level of risk.

The plan asset mix is in compliance with the requirements of the local regulations.

(viii) Defined benefit liability and employer contributions

The Company has agreed that it will aim to eliminate the deficit in defined benefit gratuity plan over the coming years. Funding levels are monitored on an annual basis and the current agreed contribution rate as advised by the LIC. The Company considers that the contribution rates set at the last valuation date are sufficient to eliminate the deficit over the coming years and that regular contributions, which are based on service costs, will not increase significantly.

The expected maturity analysis of gratuity is as follows:
